

The 53rd JAIF Annual Conference

April 20 (Mon.) – 21 (Tue.), 2020

Tokyo International Forum (Hall B7)

“Road to 2050: Energy and Nuclear for the Future”

As one of its major activities, the Japan Atomic Industrial Forum (JAIF) stages the “JAIF Annual Conference” each spring, with the participation of experts, specialists and other nuclear-related people from Japan and around the world.

At the conference, participants make presentations and exchange views on important issues in the use of energy and the development and use of nuclear power. They share their recognitions and awareness in an effort to identify important issues and resolutions through the conference. The conference is also a chance for all participants to interact, get to know and better understand each other. At the same time, it provides an opportunity for the Japanese nuclear industry to speak to the world about its current state and capabilities, while also listening, learning and re-recognizing the importance of international cooperation.

Under the Paris Agreement, the new international framework for curbing greenhouse gas (GHG) emissions, the achievement of a low-carbon society is envisioned by 2050. The Japanese government’s special advisory panel of experts on a long-term strategy under the Paris Agreement advocates a so-called “energy shift” and realization of a low-carbon society with nuclear energy as an option.

The 53rd annual conference will address from broad viewpoints the desired states of energy and the nuclear business, and what should be done from now to achieve them.

4.20 **mon**

11 : 00 12 : 30	Opening Session ○ Keynote addresses ○ Special presentation① KAKU Kozo, Historian/Writer
13 : 45 16 : 15	Session 1 “Energy Vision toward 2050”
16 : 30 17 : 15	○ Special presentation② YOSHINO Akira, 2019 Nobel Prize Laureate in Chemistry & Honorary Fellow of Asahi Kasei, Corp.
17 : 30 19 : 30	Reception HALL B5

4.21 **tue**

simultaneous interpretation available

9 : 30 10 : 00	“Current State and Challenges at Fukushima Daiichi Nuclear Power Station”
10 : 00 12 : 45	Session 2 “Nuclear Perspectives toward 2050”
14 : 00 17 : 00	Session 3 “Nuclear Innovation toward 2050”
Side Events *at reception only	
4.20	● Exhibition of Fukushima Products ● Exhibition by JAIF Members

*The program is subject to change.

◎ Participation Fee (tax included)

JAIF Members: 51,000 JPY / Non JAIF Members: 102,000 JPY

*The participation fee includes access to all sessions and dinner reception. *To encourage active participation among diverse groups, each paid participant from any JAIF member company is welcome to bring along up to 2 young (under 36) or female colleagues free of charge (except dinner reception). Advance online registration is required.
